

SCHEDULE WA-3 – B
IRRIGATION METERED SERVICE

APPLICABILITY:

Applicable to current WA-3 Irrigation Metered Service rate customers prior to May 31, 2003 with qualifying groves outside the Greenbelt who will be transitioned to the WA-9 Grove Preservation Service rate schedule over a three-year period effective June 1, 2005.

TERRITORY:

City of Riverside and contiguous area.

RATES:

A. Basic Area (Inside City)

1. With Residence

<u>Quantity Rates</u>		<u>Per 100 Cubic Feet</u>
First	10,000 cubic feet per month	\$0.72
All over	10,000 cubic feet per month	\$1.12

2. Without Residence

<u>Quantity Rate</u>	<u>Per 100 Cubic Feet</u>
All cubic feet per month	\$1.12

Minimum Charge

		<u>Minimum Monthly Charge</u>
All meter sizes through	3-inch	\$86.88
	4-inch	121.02
	6-inch	259.88
	8-inch	436.28

The Department shall specify meter size based on acreage need. The Minimum Charge will entitle the Customer to the quantity of water that the monthly minimum charge will purchase at the Quantity Rates rounded to the nearest billing unit.

B. Surcharge Area Outside City

Rates and Charges shall be the amount computed at the Quantity Rates and the Minimum Charge set forth in the Basic Area of this schedule multiplied by 1.5.

SPECIAL CONDITIONS

1. This rate schedule shall not apply to any additional Customers or additional Customers' Premises after May 31, 2003. This rate schedule shall continue to apply to WA-3 Customers and their Premises eligible for and receiving water service under WA-3 as of May 31, 2003 only so long as such Customers and their Premises continuously meet the criteria set out in the "Applicability" section above.
2. Greenbelt Definition. That area defined by Section 3(a) of Proposition R approved by the voters of Riverside in 1979.
3. Water Conservation and Reclamation Surcharge

The rates and charges above are subject to a surcharge (Water Conservation and Reclamation Surcharge) as adopted via City Council Resolution No. 20695 on May 25, 2004 and such surcharge as in effect from time to time. The Water Conservation and Reclamation Surcharge will be applied to the Customer's total water usage charge including without limitation the quantity rates, customer and minimum charge for the applicable billing period.

ENERGY COST ADJUSTMENT FOR PUMPING WATER:

The Quantity Rates shall be subject to an energy cost adjustment relating to increases and decreases in the cost of electric power for pumping water. This energy cost adjustment shall apply to each one hundred cubic feet (CCF) of sales to which Quantity Rates apply.

Determination of the adjustment factor shall be made at the beginning of each quarter, with the initial adjustment beginning February 1, 1983

The energy cost adjustment shall be calculated by dividing the CCF of metered water sold in each quarter into the total dollar amount of fuel cost adjustments plus any base rate increases imposed by power suppliers for pumping water during that quarter.

- A. Fuel cost adjustment charges by Southern California Edison Company.
- B. Fuel cost surcharge charges by City of Riverside.
- C. Base rate increase charges by Southern California Edison Company.*
- D. Base rate increase charges by City of Riverside.*

$$\frac{\$ (A+B+C+D)}{\text{CCF (Metered Sales)}} = \$.0000 \text{ per CCF}$$

The resultant shall be the energy cost adjustment factor for pumping water and shall be expressed in terms of cents per CCF carried out to the nearest \$0.0001. This factor shall be divided by 0.885 to allow for the 11.5% of gross revenue payable to the City General Fund. The resultant shall then become the energy cost adjustment to be multiplied by all CCF increments reported in billings to Customers. The resultant amount in each case, expressed to the nearest \$0.01, shall constitute the adjustment to be added to the Customer's bill.

*(Over base rates in effect February 1, 1983)
